

SR 89/SR89A

CONSTRUCTION NOTICE

April 2007

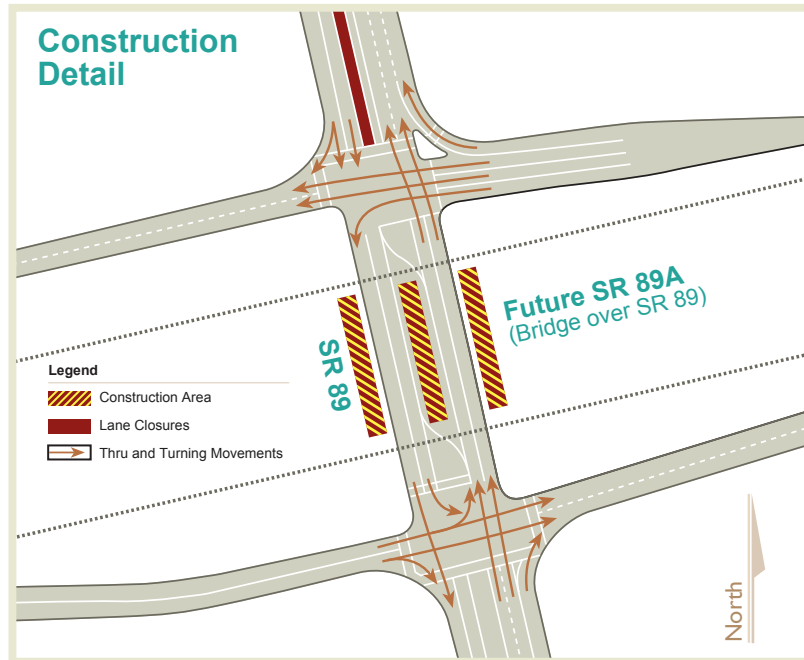

Work to Begin on New Bridge

The Arizona Department of Transportation (ADOT) began construction this month on bridges at the SR 89/89A traffic interchange. The project is expected to be completed in early 2008 and will allow for more free-flowing traffic through the interchange.

Construction of the bridges will require some closures for safety of workers and the public. Advance notice of such closures will be given and major regional events will be avoided.

Let Us Keep You Informed

ADOT is committed to communicating with you about improvement projects. Visit ADOT'S website at azdot.gov/highways/projects.asp to learn more about this and other ADOT projects in the region. You may also contact our telephone hotline at 1-888-236-4374.

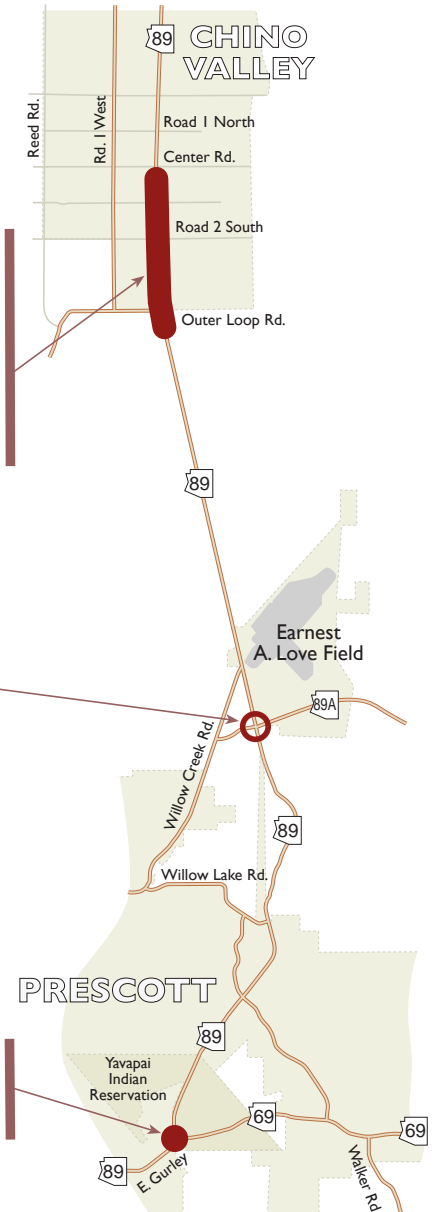

Thank you for Your Patience

The improvements to these state transportation routes will provide increased safety and mobility. ADOT appreciates your patience during construction and thanks you for driving safely through the construction zone.

Other Upcoming Improvements in the Region

ADOT currently is designing improvements to SR 89 from Center Street in Chino Valley to Road 5 south, widening the stretch from 2 to 4 lanes and providing associated intersection and drainage improvements. Construction should start late in 2007.

ADOT also will start constructing improvements to the SR69/SR89 Traffic Interchange later this year.
